**SCH #: 2020079005**

In accordance with the California Environmental Quality Act (CEQA), the County of Santa Cruz has completed a Draft Environmental Impact Report (EIR) addressing the potential environmental impacts associated with the proposed Sustainability Policy and Regulatory Update of the County's General Plan/Local Coastal Program (LCP) and County Code (Sustainability Update or proposed project). The notice is to inform the public and interested agencies of the availability of the Draft Environmental Impact Report (EIR), indicating where and how copies of the Draft EIR can be obtained or are otherwise available for public review.

**PROJECT LOCATION:** The proposed project is located within Santa Cruz County and includes all unincorporated lands within the county.

**PROJECT DESCRIPTION:** The proposed project consists of amendments to the County's existing General Plan/LCP and several sections of the Santa Cruz County Code (SCCC), as well as new County Design Guidelines and Rezoning of Opportunity Sites to implement the plan, as well as correct inconsistencies in General Plan designations and zoning. The goal of this update is to implement new policies and code regulations that support more sustainable communities in unincorporated Santa Cruz County.

**ENVIRONMENTAL EFFECTS:** The Draft EIR found that adoption and implementation of the proposed project may result in potentially significant and unavoidable environmental impacts related to farmland conversion, sensitive habitats, historical resources, water supply at both a project level and cumulative level, and vehicle miles traveled (VMT) at both a project level and cumulative level.

**REVIEW AND COMMENT:** The 45-day public review period for the Draft EIR is from April 14, 2022 through May 31, 2022. Comments on the Draft EIR must be received in writing by email to [CEQA-NEPA@santacruzcounty.us](mailto:CEQA-NEPA@santacruzcounty.us) or mail to the contact listed below by 5:00 p.m. on May 31, 2022.
